Prevident Usage Instructions

Use Prevident exactly as was prescribed by Dental Professional.

For best results, use Prevident just before bedtime, unless instructed otherwise.

1. Place pea size amount on a DRY toothbrush
2. Brush as usual; you may even use your floss to drag the Prevident in between your teeth.
3. When finished brushing, do not rinse! Just spit out any extra material.
4. DO NOT EAT OR DRINK FOR AT LEAST 30 MINUTES AFTER USING.

Please call or stop in the office to purchase more Prevident, or with any questions.
